vaidehiawasthi07@gmail.com | [Github](#) | [LinkedIn](#) | [LeetCode](#)

## PROFILE

Motivated 3rd-year Computer Science student passionate about full-stack development and creative coding. Strong in problem-solving and currently exploring AI technologies. Eager to contribute to impactful software projects and grow through hands-on experience.

## EDUCATION

Madhav Institute of Technology and Science

**Bachelor of Technology** in Computer Science and Design

2023 – 2027 | Gwalior, India

- Among the top 1% of the batch (CGPA: 9.02)
- Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Web Programming

## SKILLS

**Technical:** C++, Java, Python, SQL (basic), Data Structures & Algorithms, OOP, Backend Development, REST APIs, Problem Solving, Debugging

**Web & Front-End Technologies:**

HTML5, CSS3, Tailwind CSS, Responsive UI fundamentals

**Tools:** Django, Git, GitHub, JavaFX, VS Code, IntelliJ IDEA

## PROJECTS

[Saaf – Community-Driven Neighborhood Cleanliness Platform](#) | 2025

- Built a community platform to organize cleanliness drives, manage events, and coordinate volunteers, solving the problem of unstructured local participation and communication.
- Tools & Technologies: Django, SQLite, HTML, CSS, JavaScript, Django ORM, browser geolocation, basic AI text assistance.
- Enabled users to discover nearby events, manage participation, and improve motivation stories with AI, making local initiatives more discoverable and engaging.

[Typing Speed Test App \(JavaFX Desktop App\)](#) | 2025

- Developed a real-time typing test application to accurately measure typing speed and correctness with strict input control and live feedback.
- Tools & Technologies: Java, JavaFX, TextFlow, TextField, real-time character and word comparison logic.
- Delivered instant visual accuracy feedback and automatic test completion with detailed speed and accuracy metrics.

## ACHIEVEMENTS

- Google Developer Groups (GDG)– Active Member (Campus Chapter).
- Participating in technical workshops and hackathons; contributing to community discussions.
